

# The Goobanaas of the Contemporary Predatory Settler Colonial Empire of Abyssinia

The Domicders, Meneilk II (ul) ,Gobanaa (ur),Teferi (bl) Abiy (br)

As the world of the 21<sup>st</sup> century began to take history seriously by pulling and tearing down the status of the pioneering slave-traders, slave-holders, slave-entrepreneurs, and the worst evil men with sub-human instinct who committed a crime against humanity, *Demociders* coined by Rummel, the colonialist, like Leopold II of Belgium Congo, Cecil Rhodes of British Empire (Cape to Cairo), etc, the contemporary Goobanaa II (GII), a cold-blooded killer and a vulgar Colonel Abiy

Ahmed, the shepherd of Nafxanyaa hooligans; (a collection of moral-less, ethic-less beasts), absurdly departed from adoring and preaching to the Nafxanyaa demociders, such as Sahle Mariam Haile Meleket, fake renamed to “Menelik II” (re. 1865-1913), and his follower Teferi Mekonnen also fake renamed to “Haile Sellasie (re. 1930-1974) as his prophets in their graveyard.

***Democide* is defined by Rummel: *The murder of any person or people by a government, including genocide, politicide, and mass murder.* [1, 2]**

The prophet of assimilated askaris of GII, Sahle Mariam, the pitch-black skinned with pox-marked face, and funny nose (Leopold II) was contracted ***Syphilis***; (a sexually transmitted infection caused by a *Spirochaete bacterium* called *Treponema pallidum*) diagnosis by his European physician at ***his early younger ages***. As a result, the sick monster suffered lifelong with relapsing severe headache; difficulties in coordinating muscle movements; paralysis; numbness; and dementia (mental disorder). i.e. infected the brain and nervous system that led him ***to infertility***, and died of ***Neurosyphilis*** without biological offspring.

What was known about his follower Teferi Mekonnen, with a daunting status with a hawk-nosed, broad lobed ear, unlike his “fathers?” snub nose, and small earlobes is that his mother Yeshiemebe who was nine times pregnant but all born dead or died briefly after birth. The birth of Teferi as the tenth as mythmakers of his biographers put “*It was a work of a miracle that she delivered a healthy child on 23 of Juli 1892*” and continued to tell that she died two years later. The rule of biology enforces as to conclude from this anamnesis that both of them (Mekonnen and Yeshiemebe) were infertile and could not bear offspring, thus he belongs to non of them as it was claimed. The other option of the rule of biology so far there was no in-vitro fertilization at this junction of the history, thus the male sperm donor must be someone-else but not Mekonnen if we depart from his nine donations and her pregnancy that ended up with abortions. What was left to prove the thesis is a simple DNA test.

Be it as it may Teferi was known as a self-denier, self-styled, a pathological liar despotic fiefdom-feudal monarchy who attested the ballad of the “*Tribe of Judah*” from a vacuum whom we did not know for sure even his biological father. He consolidated political power through treachery and internal coups d'état vs. Zewidtu in 1930. He scribed the first constitution in written form 1931 for the first time by plagiarizing the documents of Emperor Meiji of the Japan Empire, plus the Russian King (Sar) on face value translated into the settler colonial creole language called Amharic. The despotic feudal warlord, Teferi Mekonnen personalized the oldest default *Gafol System* that has its root in the outlaw barbaric warlord so-called Ezana of Aksum in the 4<sup>th</sup> century AD He was also the first who stole the name “Ethiopia” by replacing Abyssinia or Habesha alleged “Semitic stock” as it was historically known since the era of the arrival of the Portuguese mercenaries in the 1450s for a rescue mission by the request of the outlaw warlord Habsha warlord at that junction of history that was considered as the only “*Christian*

*Kingdom of Prester John*” the whereabouts were not known that Portuguese considered to be actual Habesha out of entire Africa.

More disgraceful was that he was also known as a traitor, who betrayed the land invaded by Italy during WWII and fled to Britain to save his neck, Saturday, on 2 May 1936, three days before Benito Mussolini, the Fascist Duce’s Italian army entered Finfinnee, the placenta land of the Great Oromo Nation. They brought him back to Finfinne in the wake the Allied victory over Italy and put him on the “throne” to serve as a marionette and revised the constitution in 1955.

The contemporary dictator of the 21<sup>st</sup> century Colonel Abiy Ahmed, a walking liar, a hypocrite, and a cold-blooded killer that must be named and shamed without a shadow of doubt departed from propagating and reiterating to bring back to “One-Ethiopia” of the demociders, redundantly stated that he is ready to give his neck for her. From a propaganda point of view, he remembered us the propaganda of the military junta’s zealous rhetoric of “*Ethiopia or death, until one man left,*” the blasted liar who finally fled to Harare to save his neck.

The contemporary Nafxanyaa Safaris (Gun-bearer Habeshas settlers) gangs leader Colonel Abiy Ahmed who turned from transitional dictator to super dictator within less than two years could not be otherwise except that most plausibly fly to save his neck to Asmara, to his Mentor not to Harare. The question left is not how but when.

The schizoid paranoia of Abiy Ahmed, a mid-day dreamer has been that he intends to reverse the total liberation of the great Oromo nation (Qabsoo Xumura Gabruuma (QXG)) that led by from Waaqa (God) blessed Qeerros and Qaarrees the Alpha generation the gallant vanguards of QXG that galvanized the entire great Oromo nation and their brothers and sisters of the historical fate from Abyssinian settler-colonial slavery (Nafxanyaa Safaris) rule of the entire south people incarcerated within the house of prison since her invention in the last quarter of the 19<sup>th</sup> century. They masterly knocked the knee of the most brute fascist TPLF rule of twenty-eight years and toppled the underdog TPLF puppet, Halie Mariam Desalegn.

It was the unwavering revolution of the Alpha generation of the Great Oromo Nation who stood firm with an empty hand against tanks rolling on them, guns pointed at their head who sacrificed their life that led the settler-colonial Abyssinia Empire to her final hour to put a nail in her coffin in summer 2018. Out of this political quagmire on her fate to collapse, a group called “reformist” vividly from within the so-called OPDOs, the askaris, the working horses of the TPLFs, their creators, and their masters (1989-2018) made a U-turn come out from the back yard. The pathological liars called the “reformist” who justified the revolution of the downtrodden mass and by cursing their masters as terrorists. They mimicked the demands of Qabsoo Xumura Gabruuma (QXG) of the Alpha generation (Qeerros and Qaarrees) portrayed themselves as if they were part and parcel of the Qabsoo from within the rule of the TPLF-Fascists and

mesmerized the revolutionary forces to take a charge of the course of the struggle of QXG.

Colonel Abiy Ahmed the contemporary gang who took the charge and leads settler-colonial Abyssinians (Nafxanyaa Safaries) was not a *Novus Coronavirus* that jumped to the Human species recently and shaking the world in all spheres of life to the very minute. He did not for sure fall down to Finfinnee from the moon in April 2018. He served as the chief of spy agent of the TPLF-Fascist regime killer beasts for 28-years solid that plagued on Oromia and the entire south since summer 1991 and smeared with Oromo blood.

Although, the tone of evidence of the crime against humanity they committed brutally murdered indiscriminately, raped, incarcerated, disappeared, evicted, etc of the Oromo heroes and heroines and other alkies had been documented, reported, and well known in the global arena as a result of settlers genocidal acts of the tyrannical rulers who were qualified to be brought to the International Criminal Court (ICJ) who had been brutally murdered indiscriminately, raped, mass incarcerated, disappeared, evicted, etc. Since May 1991 who had been qualified to be brought in the Carnegieplein 2, 2517 KJ Den Haag, in the Netherlands including Abiy Ahmed. *This world is not this world*. Instead, he was invited to Oslo to receive the “*Nobel Peace Prize*” just within eighteen months of power bewildering without a shame.

A fatal erratum to regret right from the beginning has been also that the entire revolutionary forces trusted him to transit the barbaric and backward empire in hope of for better future, freedom, and peace, and gave him a chance to climb up to the political saddle. Abiy has been de facto the master liar, intriguer, hypocrite with chameleonic behavioral and fascistic hooligan that has been an open secret. One must have a strong stomach to digest the paradox of the facts of genocidal acts who turned from transitional dictator to super-dictator within just two years’ analog to Adolf Hitler’s Third Reich.

*Pray tell, my brother,  
Why do dictators kill  
And make war?  
Is it for glory; for things,  
for beliefs, for hatred,  
for power?  
Yes, but more,  
because they can [2].*

He emerged from the cocoons of the Prisoners of War (POWs), the conglomerates of militias forcibly recruited from the entire south people sent to the north by the megalomaniac, power-gear, delusional Stalinist military junta Mengistu Haile lost the war, surrendered, and finally captured with their Kalashnikovs in Tigray and Eritrean desert. By 1982 the military junta mobilized total manpower that stood an estimated 245, 000 under the garb clad with “Red Star Campaign.” These were ill-recruited in remote and unknown impassible camps built within the Empire the whereabouts were

hardly know to the people at large and the families of the kidnapped sons. They were finally packed in military convoys in dark transported to the unknown terra to die in Tigray and Eretria deserts under the slogan of *Everything to the battlefronts! Ethiopia or Death!* And half of them were involved in the attacks on the EPLF base areas. After nine years of combat, the EPLF who took the upper hand and who continuously trumped captured 82,000 POWs and 44,000 dependents in 1991 alone [3].

As the pitch black Leopold II, Sahle Marim “Menelik” the Prophet of Abiy found out Goobanaa Daccee, an enemy, traitors from within the great Oromo nation, the TPLF rebel gangs led by Meles Zenawi found out, molded and branded the POWs of the classical enemy of Mengistu’s armies who fought against each other for 17 years solid. The TPLF did neither killed, arrested the POWs, finally captured with their Kalashnikovs in Tigray and Eritrean desert nor taken to local or international courts as the international law demands, but they took diametrically the opposite option they branded them to a fake named umbrella front called “The Ethiopian People's Revolutionary Democratic Front (EPRDF) and rearranged into organizations.

The faked named amalgamated front consisted of The Tigrayan People's Liberation Front (TPLF) actin as the Master- architect, the Ethiopian People's Democratic Movement (EPDM), the so-called nominal Oromo People’s Democratic Organization (OPDO) from nowhere in injected in it in Tigray desert in January 1989. They were further rearranged to fake named “People’s Democratic Organizations” (PDO) a misnomer indeed. They were neither democrats nor peoples’ organization but the Prisoners of War (POWs) created for a purpose who come out of counted over 89 Ethno-nations of the entire south sent by the Military junta to die in northern deserts. To the great Oromo Nation, with similar if not identical fate, the name Oromo that the TPLF branded as OPDO in Tigray desert was an insult as it was by the other Ethno-nations incarcerated within the empire which they did not know and heard of them.

They Ethno-names attested to PDOs that come out of the TPLF fabric were created to play a great role for the TPLF and the EPLF guerrilla rebels’ whose life has been in the Tigray and Eritrean desert since their birth correspondingly. The entire south they planned to invade, to occupy, to settle, to plunder, to loot, and to exploit to the extent they can, was virtually the unknown Terra. Whereas, for the POWs who were sent from the south is their home. They know their people, culture, landscape, strength, weakness, etc., and can lead the blind TPLF and EPLF rebel militias in the move toward the south being in the front line to achieve their goals.

Thus, the PDOs were practically invented to serve as a loyal working horse, and as Askaris (analogy to the British, the German or Italian African colonial Askaris). In other words, to serve as the (Global Positioning System (GPS) of TPLF and EPLF deployed in invading the new world, the south, the Garden of Eden, and promised to take their shear once the dirty job is accomplished on the road toward the south. Indeed, they fulfilled their jobs as it has been ordered by TPLF without hesitation more ridiculously

gratification until the TPLF gangs fled back after two–eight years of committing democide.

As they marched from Tigray desert from far north toward the south about a thousand kilometers to arrive at Finfinnee, the garden of Eden, Oromia, and the entire South and occupied Finfinnee in summer 1991, there were insignificant fire exchanges by remaining and collapsing remained armies of Mengistu on the road toward the south

These askaris were also intended to be sent in the frontline in the war front when necessary, as it had been the case of the war instigated and waged against Eretria what was called a fratricidal war in 1998 to 2000 an invasion of Somalia, proxy war, in 2006. The fake OPDOs were created by TPLF for TPLF primarily to take in charge of the Great Oromo Nation to employ and deploy them within Oromia to supplant themselves in the mind of the great Oromo nation.

They left no stone unturned to brush the genuine and the oldest Oromo People's Liberation fronts such as the OLF, IFLO, the heart, and the soul, the spear and the shield of the great Oromo Nations foundations of Our Heroes like Jeneral Waaqoo Guutuu, Soorresa Jaaraa Abbaa Gadaa, Hussein Sora, Elemo Qiltu, General Taadasaa Birruu just to note a few among millions of heroes and heroines the great Oromo Nation nurtured in every village of wonderful Oromia who sacrificed their lives.

They inspired us, our nations that we all echo, remember, celebrate their legacy and took an oath to accomplish these genuine and from Waaqaa (God blessed) given tasks of total Liberation of the Land of the great and ancient African people the OROMOS and OROMIA from aliens who preyed upon our land and human labor since the great Oromo nation have been fallen in their hands to the very date.

The mercenary askaris, the OPDs packed with semi-illiterate militias, under the command of TPLF-gangs who knew nothing except mass-killing, looting, rape, incarcerating vilified Oromuuma (Oromoness) Oromos throughout their services committing crimes to the very date. The Renaissance the great Oromo nation that the Neftanyaas left no stone left to wipeout since they planted their feet firmly held Oromia that made them sleepless and turned to a nightmare, to the askaris and their masters, the EPRDF of TPLF recently replaced molded to the Nafxanyaa party, a collection of the offsprings of the residuals of the five outlaw monsters (**Menelik-T. Mekonnen-Mengistu-and Meles**) named itself (Prosperity Party) from a vacuum. It deserves to be called a **Predatory Party of Nafxanyaa** (settler colonial Habesha/ Abyssinian) that dreams to bring back the monsters from the grave-yard and sat tall on the political saddle of the Predatory Party designed in their cocoons to furnish.

These monsters were known as a killer beast who committed the gruesome act of killing and punishing, even who unlikely submitted and failed in their hands and their militias *Nafxanyaa iller hordes*. The pitch-black Leopold II, Sahle Mariam, fake named

“Menelik II,”(1865-1913), the *Demociders*, similar if not identical to Leopold II of Congo Free State who enslaved, chopped off hands and legs of millions of Congolese, that once as BBC designated him “*White King Red Rubber, Black death.*”

The pitch-black domcider called Menelik was known as the master of chopping hands (**Harka mura**), legs (**Miila mura**) of males and the breast (**Harma mura**) of females of the Oromo people and the entire south people who stood firm against his invading hordes like a wild carnivorous who shaped the contemporary predatory settler-colonial Abyssinian Empire. He was also the master of *Slave raiders*, *Slaveholders*, *Slave traders*, Livestock raiders, looters, plunderers of all agricultural products.

Most aggressively as the gallant Arsii Oromos, resisted and fought against the Nafxanyaa (gun-bearers) militias hordes armed with European gun fires of settler-colonial Abyssinian expansionist. The gallant Arsii Oromo cavalries kept Meneliks militia hordes armed with modern Europeans made and provided modern weapons them at bay for eight years solid with homemade spears sword and shields.

The Arsii heroes and heroines sacrificed their life on their ancestral soil. They left their remaining body that lays under the Arsii soil to the great Oromo nation and experts to be excavated, identified by their names, and reburied with the degree of Honor, Heroism, and Patriotism remembered in written and thought to their children's and in the history of the Great Oromo Nation to the world. That is not only an obligation for the experts but also an honor to accomplish the task. The subject, the history of the Great Oromo nation must be taken seriously.

While there is no present without the past, and there is no future without a present and that is what defines history. One who does not know his history will turn a working horse for his masters. Once his duties and services have been accomplished, he must be killed like a rat by poisoning or like Goobanaa Daccee of Menelik or by other means possible, such as assassinations, by hanging. As Menelik found the perfect slave mind, the assimilated Goobanaa Daccee, the warrior that all colonial masters dreamed of who gave all his properties, forces, his ability in warfare to Shale Mariam, and sworn to serve until his last birth, so does the fate of the contemporary Goobanaa II (GII), Abiy Ahmed who leads the **Predatory Party** (PP) of Nafxanyaa (settler colonial Habesha/ Abyssinian) and it couldn't be otherwise. The question is not how but when. Dozens of facts known throughout their encounters are an open secret.

By default the Habesha outlaw warlords who catapulted up to the political Saddle have been known as masters of the masters of *Slave raiders*, *Slaveholders*, *Slave traders*, Livestock raiders, looters, plunderers of all agricultural products at least since the era of the outlaw warlord called “Ezana,” and the alleged “his civilization in the 4th century AD (re 330 -356) whom we do not know for sure if he is a Greek, or a Greek crossed with *Abasat* (settlers) tribe, or indigenous people, or an *Abasat tribe* crossed with Abasat tribe depart.

There had been relentless predatory raiding expeditions, slaves, live stocks, agricultural products three decades solid of barbarism right from Aksum, the land of Agaw people in the north to Meroe crossing the Nile down to the south, nevertheless, the deniers, settlers call it civilization and yet they are where they were like a crocodile.

Henceforth, it turned the default system of all offspring's of Habesha outlaw warlords who catapulted and hold the power of politics in most cases by butchering each other for one and half millennium more precisely in 1974. For instance, his alleged "grandfather" Sahle Sellassie (1813-47) who was known to execute at least two predatory raiding expeditions or collecting booties per year of the surrounding Oromo communities like Karrayuu, Saartee, Finfinnee, Eekkaa, Soddo. He looted, a minimum 218,000 head of cattle all in one, and human captives from 1827 to 1843 fled back to his bases at Gooro Beela or Halkobarrii to "Ankober" [4].

But what makes Menelik- a champion out all of his predecessors such as his "grandfather" who could not crossed Finfinnee had been the intensity and territorial expansion and exponential growth of Slave raiding, Slave trading, Livestock looting and plundering agricultural products, etc., by dispatching from 100,000 (minimum) to 150,000 (maximum) collection of Nafxanyaa militia killer hordes armed with firearms provided by the Europeans that have never seen within African continent at all time in history. According to eyewitness documentation by Rev. Martial De Salviaca French citizen wrote seminal work to be acknowledged for his genuine and prophetic terms he exactly coined: *An Ancient People, Great Africa Nation, The Oromo*, as the people call themselves hundred twenty years ago in 1901 proved that about 5 million Oromos were killed within ten years alone[5].

Further another, two volumes of Alexander Bulatovich[6], Russian citizen seminal work *With the Armies of Menelik II, Emperor of Ethiopia and From Entotto to the River Baro* written in the Russian language translated by Richard Seltzer into English courtesy to the author and the translator who made it available to wider English speakers in the world. Bulatovich, an eyewitnesses account and indisputable fact and figures in time and place that shows the gruesome acts of Nafxanyaas as his recorded from Finfinnee to the boundaries of the British colons encircled the Abyssinian Empire[6].

Menelik united all disfranchised barefoot soldiers of the rival warlords of Abyssinian property who butchered against each other for centuries within Habesah proper pending from Gondar to Aksum vice versa like Kasa of Tigre "Yohannis IV" and Kasa of Gondar "Tewodros" after they were killed, who finally joined Sahle Mariam to invade south and take their share. These collections of barefoot, illiterate, and fanatic infantry Nafxanyaa killer hordes called "Fannos" that can be understood as trained police dogs except that they were waking with two legs also known as the masters of the slave raiders, slave-holders, slave traders, Livestock pack animals, raiders and looters. They were also known as the plunderers of all agricultural products that come on their way until nothing

was left for the invaded people to their livelihood and to the most vulnerable of the society, their children's. See <https://oromolands.blogspot.com/2018/10/ethiomania-hooligans-within-omoria.html>

Thanks, the brain, the architect the Firearm smuggler of the Habeshaized Swiss citizen Alfred Ilg, nicknamed "*the White Abyssinian*" crowned as "*Bitwadam*" of Sahle Mariam who advised him to use the disfranchised headless militias and foot soldiers and call to join him to invade the entire south and to take their shares once they accomplished the dirty jobs of by elimination of the people "*terra nullius*" of the south and claim ownerships their territory and the resources of the south and finally to settle and reproduce by displacing the natives instead of revenging his rival enemies.

The *white Abyssinian*, Alfred Ilg arrived at "Ankober" in May 1879. He served the pitch-black deomcider for twenty-eight years solid uninterrupted in all spheres in the establishment of the settler-colonial and predatory empire of Abyssinia. He was a brain fanatic architect who has his fingers everywhere who lead a blind, illiterate bandit Sahle Mariam in establishing one of the most backward, predatory settler-colonial Abyssinia Empire and left in 1906 and died ten years later in Switzerland in 1916. Without Alfred Ilg the warlord of Ankober could have never able to crossing the next river next to his village as his father and grand-father nearest to his place of birth as his grandfather and his father late alone to establish an empire. Most disgraceful had been the role of the assimilates like Goobanaa Daaccee the enemy from within in the case of the Oromos that shaped the contour of the contemporary predatory empire trade with the stolen name "Ethiopia" plagued on the human and natural resources of Oromia and the entire south that consists of about hundred Ethnations. Goobanaa Daaccee (1821–1889) of Lichee, a brand assimilate hybrid mind, who joined a twenty-three old younger Sahle Mariam(1844-1913) right after he successfully escaped from Tewdros's prison in 1865 and arrived at Ankober safely.

From here depart his loyalty and servitude and the colonization of the great Oromo nation and the entire people of south role incarcerated within this prison-house that shaped the contemporary backward and predatory settler-colonial-empire of Abyssinia until he was killed by poison like a rat once he was no more profitable for the pitch-black Leopold II, "Menelik II." And that is the default fate of the collaborators of local assimilates in the cocoons of Nafxanyaa, as in use and throw gloves.

Goobanaa was the most cursed assimilated amharaized-Oromo, the dangerous enemy from within a traitor to the great Oromo Nation who referred him to a strange dog, who betrayed and fought against his own people and the entire people of the south. As Prof. Mohammed Hassen by quoting Getahun Delibo stated, "*The formidable Oromo warlord brought southern Oromo....under the Amhara in five years, a mission that Amhara kings and warlords tried and failed in 400 years*"[7]

The Habesha assimilators' the Meneliks and Tefere Mekonnen (1930-1974) who followed the footsteps of Menelik who extended and maintained with insignificant changes of the system within the gaps in between them. Their first move has been to ferret out the weakest mind, easily manipulable out of the natives of the targeted people. Engage them with intermarriage politics, proselytization, renaming, call "civilized" as psychological rewards while he/ she lost his/her name to make meaning from meaningless and accept the derogatory names given by their masters "perfect slave mind." According to their services, meaningless titles and small prestige were offered to make a perfect loyal, an intoxicated servant who was ready to give his neck to the sword in the disposal of his master in the front line.

As Menelik found out Goobanaa, Meles found out and branded the nominal OPDOs in the Tigray desert where some of them have been seen to speak a creole Oromo language for similar if not identical duty in purpose. Goobanaa Daaccee was designed to serve as a working horse and askaris of Menelik in building the predatory settler-colonial Abyssinia dominated by Amharic speaking settlers

The PDOs, among them, have been the so-called (OPDOs), a misnomer by itself and deserved and qualified to be called the Goobanaas and askaris of Meles who brought the blind-eyed Tigre rebels from Tigray desert to Finfinnee ca. thousand km to the south on the front line, and put them in the political saddle with the absolute domination by the Tigre-speaking Habeshas in higher echelon and all spheres of the political quagmire of the predatory empire. The Tigrian makes ca. 4% the population incarcerated in the backward and barbaric Empire. The settler-colonial Habesha (the Naftanya Safary) Empire has been dominated by "Amhara-Habeshas" since she was invented in the last quarter of the 19<sup>th</sup> century to 1991.

The PDOs of Meles has been designed to serve as askaris corresponding to their folks' belongings, nominally that counted over 89. The OPDOs were designed to serve with the Oromos and Oromia and intended to fight back the genuine liberation fronts the OLF, IFLO, and another genius civic organizations such as the oldest organization of Maccaa and Tuulama and the political organization of the Oromo people they planned and dreamed to wipe out them and led them sleepless and turned to the nightmare to the very date.

There has been no stone left unturned by the OPDOs under the tutelage of TPLF to achieve their dreams. They deployed the most blessed and oldest methods by tyrants and the most deviled method by the downtrodden mass incarcerated within the empire, the method of "divide and conquer." Since they arrived in the African continent the Habeshas have been the masters on the subject, intrigues, diabolic lies, hypocrisy, and chauvinism who took it through the maternal colostrum that they deployed in every sphere of societal life in encountering the non-Habeshas. They succeeded in assimilating the non-Habeshas, the Goobanaas in the case of Oromos to be on their side.

One thing that Habeshas knew for granted has been without brain-draining, assimilate Oromos in front line they cannot move an inch from the village where they were born late alone to invade and conquer the giant marital Oromo nations of Fooles and Buutas and occupy Oromia and the entire south. The settler-colonial Amharic speaking Habesha Naftanyass deployed all means and tools they owe such as political intermarriage, proselytization, psychological rewards, titles, small prestige to make a perfect loyal, intoxicated servant more than themselves who was ready to give his neck to the sword in the disposal of his master. They search, and found the weakest mind out of the Oromos, and other targeted people and assimilate by all means they can and deployed them in the front line to fight against their own people.

That is the reason experts categorize them that assimilates are more dangerous beast than their masters for many reasons. second, They are always in the front line and will fight harder and harder to gain psychological rewards in any form, titles, small prestige, and theoretical recognition, so far they are profitable by their master-invaders and colonizers and settlers colonizers.

*That is what the Goobanaas of the 21<sup>st</sup> Century of Nafxanyaa safaris, the blind shepherd of colonial of the predatory Settler-colonial Empire the prison-house that God has forgotten led by Colonel Abiy is committed since his service to the fascist TPLF Gangs for 28 solid years and committing right now his mind is filled with porridge implementing the system and style of the operation of Nazi Germany of Adolf Hitler in 1933. His killer militia hordes dispatched in every corner of Oromia, the primary target, running like a rabid dog, biting, killing, incarcerating the Oromo people indiscriminately to the very minute.*

To add an insult to injury to the Great Oromo Nation and the entire south to Habesha proper with similar if not identical historical fate incarcerated within this backward prison house, he built status, pontificates the pitch-black Leopold II, “Menelik II” the mad evil man seen in the Horn of Africa. Abiy Ahmed, the assimilate, slave mind dreams and preaches, to reverse the barbaric empire two steps backward to the era of the domociders and slaveholders and slave traders and preyed upon the entire south today in the 21<sup>st</sup> centuries.

He shamelessly proved his histrionic mindset by building status bringing them out of the graveyard to a public show who officially spoke out that he is proud in doing so without regret, a borderline personality disorder of denial defense mechanism. The contemporary power bewilders, the shepherd of Nefxanyans Abiy moved with the premise of elimination of the great Oromo nation punching above his weight. Twisted minds of evil men like Abiy who intend to use the mask of religion or patriotism as an excuse for some of the most horrifying crimes in history since he replaced Haile Mariam Desalgn from day one to the very minute who took power as ingratitude the writhing of its victims who began to serve his fascist masters which are not yet tabled in the

*International Court of Justice (ICJ)* to the principal judicial organ of the United Nations the question is not how but when.
